expr\_t (generic XML expression object)

Expression Type	Expression Data
-----------------	-----------------

902

Bool\_expr\_t (comp\_expr\_t is similar)

904

BOOLEAN_EXPR	operator	left_operand	right_operand
--------------	----------	--------------	---------------

path\_t

PATH	Number of steps	step	...
------	-----------------	------	-----

906

step\_t

STEP	operator	element	filter
------	----------	---------	--------

908

func\_expr\_t

FUNCTION_EXPR	function	returned value	number of arguments	arguments
---------------	----------	----------------	---------------------	-----------

910

element\_t

ELEMENT	name
---------	------

912

attribute\_t

ATTRIBUTE	name
-----------	------

914

text\_t

TEXT	value type	value
------	------------	-------

916

default\_t

DEFAULT
---------

918

FIG. 9

XML Pattern: //Employee/Name[@LastName= "Smith" and @Initial]
